Remarks:

Review of the specification revealed that the specification needed updating to reference the patent number of an incorporated parent application, which has now issued as U.S. Patent No. 7,195,381. Review of the claims revealed an error in claim 34, which has now been corrected so that claim 34 is properly dependent on independent claim 37.

Because the present amendment relates to matters of form only, and does not require any further search on the part of the Examiner, it is respectfully submitted that it is proper for entry and such entry is requested along with a notice of approval of the amendment.

Respectfully submitted,

IAN A. MCCABE ET AL.
